A DRIVER BOY'S FATE

Found Dead in a West Shenandoah Colliery Gangway

WAS LYING IN THE DITCH

His Neck Was Broken and Discolored and it is Believed the Mule Found Standing Near Killed Him.

A strange fatal accident occurred in a gangway of the West Shenandoah colliery yesterday. The victim was Alex. Robusky, aged 17 years, and residing on South Jardin street. He was employed as a driver in the mine.

When Thomas McCormick, a contractor, was walking out through the gangway he found a mine car and mule standing in darkness. Upon passing to the side of the car the rays from the mining lamp on his hat fell upon the prostrate form of Robusky, which was lying in the ditch. The body was stretched out with face upturned and was warm. At first McCormick thought the boy had fainted, but a second glance at the face told of the presence of death. The boy's cap and lamp were on his head, but the light was extinguished. There was no place from which the victim could have fallen and no indications that anything had fallen upon him, or that he had been crushed between the car and the timbers of the gangway, or under the car. McCormick summoned other men in the mine and the body was removed to the outlet in the car.

In handling the body after removal from the mine it was discovered that the neck was broken and the only mark of violence discernible on the body was a discoloration on the neck. The conclusion arrived at is that Robusky was kicked in the neck by the mule he was driving, which was the one McCormick found standing near the body. The boy is supposed to have been kicked about fifteen minutes before the body was found and death must have been instantaneous.

The other evening an incident occurred in town which could hardly have happened elsewhere in Schuylkill county. A wordy war was in progress between a Pole and an Irishman, with a German and an American from the First ward as spectators in the office. THE BOARD OF HEALTH

Reports Show Ravages Upon Infants by Cholera Morbus.

DISCUSSION ON NUISANCES!

Mr. Malone, a Member of the Board, Complains That the Health Officer Treated Him Unjustly in Reports.

A meeting of the Board of Health was held in the Council chamber last night with three members in attendance, Messrs. Miles, Malone and McHale. But little business was transacted, most of the session being taken up by Mr. Malone, who complained that the Health Officer had treated him unjustly in reports to the board. Mr. Timothy Miles presided at the meeting in the absence of the president.

The epidemic committee reported that during the last week three cases of diphtheria, one of scarletina and thirty-five deaths were reported. About eighty per cent. of these deaths were due to affliction of infants by cholera morbus.

Health Officer Miles reported the existence of a nuisance at the south end of West street and said it could be abated if the Borough Council would fix the street properly. He also stated that the P. & R. C. & I. Co. is willing to fix up its property on Bridge street and abate a nuisance there as soon as the Borough Council will fix a grade. This matter was up about a year ago and the place was viewed by members of Council.

Mr. Malone then asked permission to speak on a question of privilege. He said the Health Officer did him a great injustice in a recent report to the Board of Health. He reported a nuisance at the property corner of Oak street and Pearl alley, and Mr. Malone, the owner, claimed there was no nuisance there. Mr. Malone said he had offered to remove the nuisance if the Health Officer could locate it. The officer had done an injustice because he complained to the board and gave the matter to the press and the public before notifying him to abate the nuisance on "the rocks." Mr. Malone said the report was made on June 28th and he received a written notice from the officer on July 8th, and had not received one word of notice before that.

Health Officer Miles contradicted Mr. Malone. He asserted that he always gives verbal notices before issuing the written ones and Mr. Malone was notified verbally before the report was made. This Mr. Malone denied and quite a discussion followed, during which Mr. Malone said there were 150 places in the town that could not compare with his properties in a sanitary sense. During the discussion it transpired that a part of the Pearl alley property complained of does not belong to Mr. Malone. He said the water on the pavement comes from another place. The Health Officer stated that one of the nuisances is an accumulation of foul water in the cellar of one of the properties and Mr. Malone said he never put a cellar under the building and if there is an excavation it was made by some tenant without his knowledge. Mr. Malone has abated the nuisance at his properties at "the rocks."
